Experience

Graphic Designer & Developer

Freelance (Nov. 2017 – Present)

- Designed multimedia content such as logos, headers, and UI-designs. All of which uses acquired skill set to produce refined results.
- Front-end developed websites and apps in a collaborative environment to create user-friendly products with the eye of a UI / UX designer.

Featured Work

Creative Director, Fullstack Developer

OKLENT (Jun. 2022) – <https://oklent.com>

- Created the logo design, social media assets, and website design. Made sure they all align with the branding of the company.
- Structured the base and created components within the website to be dynamic for on-demand changes.

UI / UX Designer, Frontend Developer

Big Oceans (Apr. 2022) – <https://botc-com.com/>

- Designed the website based on the company's brochure then proceeded to develop it according to the feedback provided from the company's owner.

Graphic Designer, Frontend Developer

Fitness Solutions (Jul. 2021) – <https://fsc-com.com/>

- Designed brochure, social media posts and website for the GYM, as well as the profile to attain partnerships.
- Developed the website which includes a form for gym subscription. Upon completion, the user receives a PDF file with their input.

UI / UX Designer, Frontend Developer

UKI Circuit (May 2020) – <https://ukcircuit.co.uk>

- Designed and developed their website according to their needs. The main objective was to have a platform that handles authentic reports from their userbase.

Graphic Designer, Frontend Developer

Jockie Music (Apr. 2022) – <https://jockiemusic.com/>

- Designed avatar, social media headers, and website for the Discord bot.
- Developed the website to showcase the commands in its full functionality and also a FAQ page with recursive questions.
