Work Experience

Fintech Industrial

May 2021 – Present

Graphic Designer

Fintech Industrial is a financial services corporation that provides market data coverage & analytical technologies.

- Worked with the design team to plan, create and prepare UI / UX designs for further processing on behalf of the development team.
- Participated in design sprints for creation of digital assets associated with branding.
- Minor software development in React.js.

Freelance

November 2017 – Present

Product Designer

Collaborated closely with each client to understand their needs. I have been able to develop effective design solutions that meet their goals.

- Worked on more than 50+ user interfaces while maintaining feedback with clients throughout the process.
- Adjusted with different design styles and was able to craft ones that flawlessly adhere to specific branding.

About

I am Mohsen, but you can call me Bumbleboss. I work as a Product Designer / Front-end Engineer, sometimes both. When not working, I can be found gaming and binge-watching TV shows.

Education

Egyptian Russian University

Bachelor of Engineering - Mechatronics, Robotics and Engineering (2019 – 2024)
